BY IGOR KOSSOV

With 120,000 Russian troops massed on their doorstep, Ukraines armed forces know they could soon face the ultimate test.

Those forces are a lot more prepared than they were for the last Russian attack in 2014, thanks to hard-earned combat experience, foreign weapons and military reforms.

However, a number of these reforms are incomplete, such as the transition from a post-Soviet centralized command to one thats more flexible.
