
NORTH KOREA TESTS BANNED INTERCONTINENTAL MISSILE

-

24.03.2022

BBC News (24 Mart 2022)

North Korea has tested a banned intercontinental ballistic missile (ICBM) for the first time since 2017, South Korea and Japan say.

Japanese officials estimated it flew 1,100 km (684 miles). It fell in Japanese waters after flying for more than an hour.

An ICBM can travel thousands of kilometres on a standard trajectory, and could theoretically reach the US.
