
CHINA'S SHANGHAI AIMS TO END COVID LOCKDOWN BY JUNE 1

-

17.05.2022

Al Jazeera (16 May 2022)

The Chinese city of Shanghai has announced plans to reopen gradually after spending more than six weeks in lockdown and stamping out COVID-19 transmission in 15 of its 16 districts.

The opening will be rolled out in phases, state media reported on Monday, with city authorities saying normal life will resume on June 1.

Shanghai's first priority will be resuming industrial production and manufacturing and then commercial business, Deputy Mayor Zong Ming was quoted as saying.
