"The Council of Ministers is not preparing to lift the veto on North Macedonia's membership in the European Union." This was stated by the Speaker of the National Assembly Nikola Minchev on the Bulgarian National Radio.

"There is definitely no lifting of the veto alone. This is a topic that can be very conveniently exploited for political purposes. There is no real reason to say that we will back down from Bulgaria's national interest. The Bulgarian position on the issue is clear and we expect implementation of the Good Neighbour Agreement and other agreements, he said.

An update of the state budget is expected to be submitted in June, Minchev added.
