The measures that Azerbaijan implemented in the last 5 years are very important in the history of the country. The lands of Garabagh, which remained under Armenian occupation for 30 years, were returned in 2020 after the 44-day patriotic war.

Further to all of these, separatists who created a so-called state in Garabagh were arrested as a result of local anti-terrorist measures held in 2023. Thus, most of the problems caused by the Armenian crime were eliminated.

One of the most memorable events after the second Garabagh War was the establishment of a border checkpoint at the beginning of the Lachin road. It is no coincidence that checkpoint caused great concern to Armenia last year.
