---

Yeni Şafak (28 August 2024)

North Korea claimed that it test-fired a rocket launcher with a new guiding system, with state-run media reporting that the system proved to be "advantageous."

North Korean leader Kim Jong-un, along with his top military commanders, guided the launches of the 240 mm multiple launch rocket system (MRLS) in production at defense industrial enterprises under the country's Second Economic Commission on Tuesday, Korean Central News Agency reported.
