A senior Armenian official did not rule out Armenias participation in the COP29 climate summit just as it kicked off in Azerbaijan's capital Baku on Monday.

Deputy Foreign Minister Vahan Kostanian said the Armenian government has still not decided whether to attend the annual UN summit that will last for almost two weeks.

If there is no decision yet, both going and not going [to COP29] are theoretically possible, he told journalists. That depends on current processes * That depends on the dynamics of the [Armenia-Azerbaijan] settlement process.
