Bosnia and Herzegovina (BiH) Presidency Member Denis Bećirović held a meeting with the Head of the European Union (EU) Delegation to BiH Luigi Soreca and the ambassadors of EU member states accredited to BiH and informed them in detail and warned them about the dangerous attacks on the foundations of the Dayton Peace Agreement and the constitutional order of BiH by the leadership of the BiH entity RS.

Bećirović emphasized, among other things, that without protecting the constitutional order of Bosnia and Herzegovina, peace and stability in the country cannot be preserved.

He called on the EU to take concrete steps to preserve peace and security in Bosnia and Herzegovina, including increasing the number of EUFOR troops. He stressed the importance of EUFOR effectively and decisively implementing its mission in Bosnia and Herzegovina, and, due to the deteriorating security situation, deploying reserve forces in key strategic areas.
