Euronews (9 May 2025)

Some economists claim that the country lacks an acceptable degree of economic condition to join the eurozone and it's not yet ready to adopt the single currency.

Bulgaria's President Rumen Radev has said he is submitting a request to parliament to hold a referendum on whether the country adopts the euro as its currency.

"Bulgaria, as a full member of the European Union, faces a strategic decision - the introduction of the single European currency," Radev said in a national address.
