Azerbaijan denounced on Tuesday a newly signed policy framework for deepening the European Unions relations with Armenia, saying that it contradicts the Armenian-Azerbaijani peace agenda.

The Azerbaijani Foreign Ministry protested against the EUs pledge to continue helping ethnic Armenian refugees from Nagorno-Karabakh as well as its support for the release of Armenian prisoners held in Azerbaijan and the Armenian governments position on transport links between the two South Caucasus countries.

The new Strategic Agenda for the EU-Armenia Partnership was signed in Brussels last week. It is meant to build upon the Enhanced Partnership Agreement (CEPA) signed by Brussels and Yerevan in 2017.
