The President of Uzbekistan Shavkat Mirziyoyev chaired a videoconference meeting on the results of the country's socio-economic development in the first half of the year and priority tasks for the remainder of the year.

Shavkat Mirziyoyev said that officials presenting at the meeting should not limit themselves to reports on work completed. He said each official must clearly explain what new internal reserves have been identified, what mechanisms have been created to use them effectively, and what specific results are planned to be achieved by the end of the year.
