The drones that bombed Ukraines energy infrastructure, leaving the country and neighbouring Moldova without power, may have been imported into the Russian Federation from the Islamic Republic of Iran via the Republic of Armenia, according to a number of analytical reports.

According to Ukrainian online publication Telegraf.ua the United States has already issued warnings to Armenia regarding its close relations with Iran and Russia.

During his visit to Yerevan in summer 2022, CIA head William Burns warned Nikol Pashinyans government to stay away from the close military alliance between Iran and Russia. But Armenia ignored Washingtons warning.
